

Realm PODS Designed by Fletcher Vaughan ©

Originally designed as concept seating for Hoyts Cinemas in 2006. The POD design provides a secluded private space within office environments, breakout areas, libraries, public spaces and airports. The acoustic qualities allow you to take timeout, to read, think, check your emails or even take a nap. Or put two PODS face to face to create a one-on-one private meeting space.

- Available with power & data ports.

NOTE: Fabric with stretch and memory is required for this design. Fabric with a linear stripe or pattern is not suitable for this design.

Fabric Recommendations:

Vivid – Feel & Sense

Textilia – Blazer, Chass & Hemp

Warwick – Cumulus & Amatheon

Due to the nature of upholstery measurements may vary marginally. CAD file available on request.
